What attracted you to work for ERS Medical?

I wanted a job that would be challenging and different. Since starting at ERS Medical I have found that no two days are the same and I really enjoy helping the patients. The job is so varied and I have gained so much experience. As we travel around we are able to meet all the different crew members in the area and have the opportunity to work in a lot of different environments.

What's the best thing or most rewarding thing about your job?

It can be quite daunting when you read a risk assessment for a patient as you want to make sure they have a safe and enjoyable journey. Therefore, I find it most rewarding when we are able to transfer a challenging patient securely by reassuring and offering them support throughout.

How long have you been with ERS Medical?

I have worked at ERS Medical for one year and six months.

What is an interesting fact about yourself?

I love to cook! My favourite dishes are mash potatoes or rice and peas with chicken. I love being a host and cooking lots of dishes for my family and friends.
